East Holmes District Parents:

We are looking forward to welcoming students back to school on Wednesday August 18th!

This week the Ohio Department of Health and Ohio Department of Education released recommendations for schools to begin school safely. These recommendations include: All eligible students and adults get vaccinated, the wearing of masks for those not vaccinated, and continuing other Covid precautions from last school year.

Based on this information, we want to communicate with you so that everyone is prepared for the beginning of school. While we encourage everyone to follow these recommendations for wearing masks and getting the vaccine when eligible, these are not mandated and will not be required to attend school. In addition, we will continue increased cleaning practices in buildings and on busses along with the installation of air filtration systems in the buildings.

Last, we again will ask for parent's help with keeping your child home when they are not feeling well. It will be essential that parents/caregivers conduct daily health checks on students prior to going to school and keep those students at home who are ill. If you have any questions, please contact the Central Office at 330-893-2610. We look forward to another successful school year!

My best,

Erik H. Beun, Superintendent
